contemporary architecture

masterpieces around the world

Contemporary Architecture. Masterpieces around the World is a new reference work that maps the exciting diversity and remarkable achievements of current architecture projects around the world. Exemplary buildings on all continents show how the sector's tasks, techniques, and styles have evolved in recent years. Conversion and sustainability have greatly increased in importance and impressive

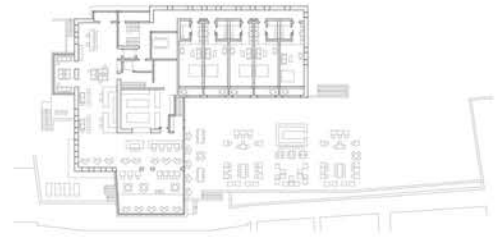

innovative architecture has emerged in new regions. Special emphasis is placed on presenting previously unknown masterpieces alongside well-known highlights of today's world of construction. This compendium also offers a reflection on the exciting contemporary global building culture and the directions in which it is developing in a world in transition.

BRAUN

BRAUN

Hotel Alex Lake Zurich

Integrated in a recreation area, this project located directly on Lake Zurich is the ideal leisure and business hotel. The angled building with restaurant terrace in front and access to the jetty offers 42 double rooms and two penthouse apartments, which are all oriented towards the lake. The bar leads to the restaurant and from there to the terrace, which offers guests an unobstructed view of the lake. From the hotel rooms on the lake level and below the terrace, one looks directly onto the boats moored at the jetty. The rooms can be combined to form suites to accommodate long-stay guests as well. The interior was designed by Brady Williams London. Due to the high-quality façade with its beige Travertine Classico at the base and the old-white, brushed plaster on the upper floors, the hotel radiates tranquility and maritime charm.
